The Certificate is valid until:

(dd-mm-yyyy)

29-06-2028

This Certificate is integrally reproducible only.
After the conditions of validity.

UK TYPE EXAMINATION CERTIFICATE

[5] Personal protective equipment description

Type name	Ci-30 KS
Type apparatus	Type K (KO2)
Rated protective duration	30 min
Apparatus for underground use	Pass the test according to EN 13794:2002 – Annex A
Inhalation temperature	≤ 50 °C
Max temperature during the use	105 °C @ 35 l/min on the metal part of the cartridge where the coal dust may occur 60 °C @ 35 l/min on the weares's side
Size	height (203 ± 2) mm length (202 ± 2) mm width (112 ± 2) mm
Weight	(2,5 +0,15 -0,1) kg
Lifetime	10 years

Product	pn	drawing	Rev.
Self-contained self-rescuer Ci-30 KS	Technical File	U-C47E.00.00.000	v.3

For any other information, just refer to Evaluation Report no. R07694C/00 Rev.00 date 06/2023.

[6] Technical documentation and report

The technical documentation and the reports are conserved by Eurofins E&E CML Limited and includes: material technical data sheets, instruction for use, test results.

For more information refer to Evaluation Report no. R07694C/00 Rev.00 date 06/2023.

[7] Remarks

The equipment must be worn and used according to the instructions.

[8] Certificate history

This certificate replaces the previous revision.

Certificate	Description
UKCA IT- RESP 0003/23	First issue date 30-06-2023

[9] Marking of product

For traceability the product to be marked with:

- Manufacturer's name or trade mark;
- Type designation, serial number and year of production;
- Number of standard EN 13794;
- Classification.

UK TYPE EXAMINATION CERTIFICATE

[10] **Conditions for UK Marking**

This type examination certificate relates only to the design examination, type examination and tests carried out on this personal protective equipment (PPE). Further requirements of this Regulation apply to the manufacture and the commercialization of this PPE (procedure of Annex VII or Annex VIII). These procedures and relate requirements are not considered in this certificate.

In order to fully meet with the requirements of the Regulation and legally affix the UKCA mark, the manufacturer must also have the final product and/or production assessed according to the Regulation 2016/425 and finally draw up an UK declaration of conformity for each product.

[11] **Terms and conditions**

The product liability rests with the manufacturer, his representative or, in the absence of a representative, with the importer. The statement doesn't replace in some way the declaration of conformity, neither it exonerates the manufacturer from other obligations of law for how much it concerns the responsibility from product.

The following conditions may render this certificate invalid:

- changes in the design or construction of the product;
- changes or amendments in the standards which form the basis for documenting compliance with the health and safety essential requirements of the Regulation 2016/425 on Personal Protective Equipment as brought into UK law and amended or in the directive/regulation.
